

International Exchange and Study Abroad Students Seeking Permission to enrol in Psychology Courses

I will generally follow the guidelines below. If you want to be enrolled in a course for which you do not have the required preparation courses, you *may* be allowed to enrol following discussion with me and/or the course co-ordinator. We do not have quotas on our courses, so the only reason we do not give permission to enrol, or advise against enrolling, is if your transcript suggests you might have difficulty with the level of material in the course and risk failure.

We do not admit students on international exchange or study abroad programmes to enrol in any units with PSYC codes other than those shown below.

Karen Croot

International Exchange and Study Abroad Advisor for Psychology
Brennan-MacCallum Building Room 443

cp = credit points
